

# Welcome To Your Chromebook

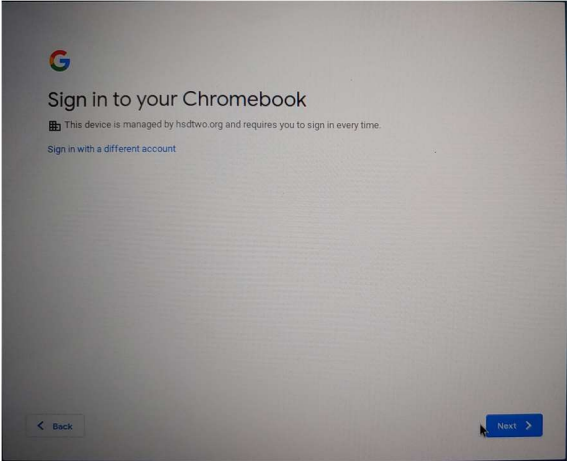

To get started, turn on your Chromebook. You can find the power button on the right side of the machine.

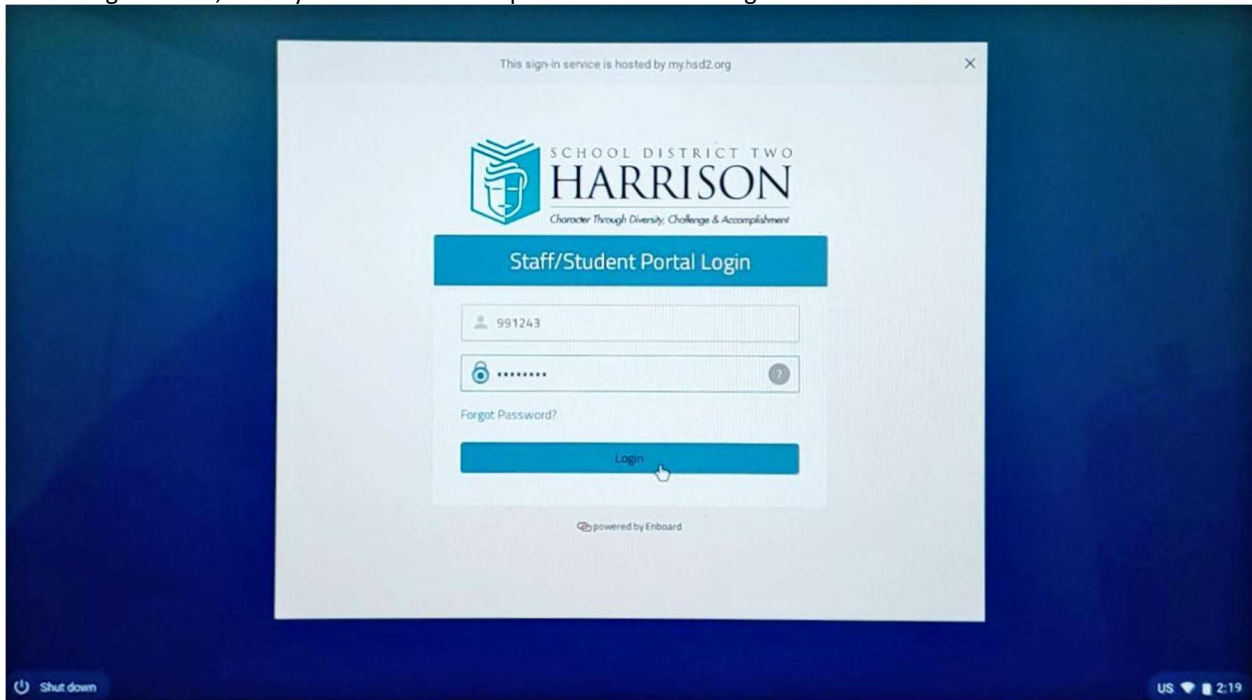

If you are at home and not at school, you will need to connect to your Wi-Fi. Click on your network and enter its password.

After connecting to your network, you will see the following screen. Click Next.

On the login screen, enter your username and password and click Login

Once logged in, you will be automatically logged in to the My HSD2 Portal. You can access all of your applications from there. You will also have icons to access Microsoft Office in the toolbar at the bottom of the screen.
